2. Lunch will be served at the church at 6. It is desired that all who attend the evening classes beginning

at 6:30 o'clock shall be at the luncheon at 6 o'clock and remain for the class and lecture work which follows.

3. This school and conference is arranged for all the Baptists of Laurens county. It is earnestly hoped that large numbers will arrange to attend daily.

HIGH WEEK'S GOAL SET BY CONGRESS

Final Action on Emergency Tariff and Budget System Bills Expected.

Washington, May 15.—Final action on two important pieces of domestic legislation, the emergency tariff and budget system bills, and possible disposal of a measure international in scope, the Knox peace resolution, is the goal set for Congress this week by leaders.

Agreement on the tariff and budget bills, both of which are in conference, was regarded as assured by the end of the week, but progress in the House with the peace measure was somewhat in doubt. Republican leaders, however, said it was probable that Germany having accepted the allied reparations terms, the Senate peace plan would be taken up in a few days. Sentiment has developed in the House against the Knox plan for repeal of the war resolutions and for substitution of a mere declaration of peace.

Phases of the reparations question promise to come up in the Senate this week through discussion of the resolutions of Senator La Follette, Republican, Wisconsin, to condemn and inquire into President Harding's designation of personal representatives on the allied councils. Senator La Follette resolution but the extent of general debate is in doubt. Several Republican senators said to view President Harding's action with disfavor, were reported today to be increasingly disinclined to "break" with the White House by open criticism of the administration policy.

The half billion dollar naval appropriation bill has right-of-way this week in the Senate. The disarmament fighting on the measure is expected to be resumed but a vote on the disarmament conference amendment of Senator Borah, Republican, Idaho, and also on the bill itself, is expected by leaders before the week-end. The army appropriation bill, also involving disarmament as regards the size of the regular army, is to be reported this week by the Senate military committee and will follow the naval bill on the floor. The senate committee is expected

to recommend a standing army of 175,000 men as against the 150,000 figure voted by the House. The fight against the increase is expected to be waged by the same Senate group contending for naval armament reductions.

The House will consider miscellaneous bills tomorrow and receive the large deficiency appropriation bill Tuesday. The House ways and means committee is busy on the permanent tariff bill with prospects that a fortnight's more work will be required before presentation to the House.

Many committees activities will be continued this week, including resumption Tuesday of the House investigation into the escape of Grover Cleveland Bergdoll, and additional investigation beginning tomorrow of railroad conditions by the Senate Interstate Commerce committee. State highway commissioners are to appear tomorrow before the Senate post offices and post roads committee at further hearings on the \$200,000,000 good roads bill of Chairman Townsend. The Senate and House civil service committees will begin hearings Tuesday on the government employee's salary reclassification bill, and the Senate and House education committees Wednesday will hear National Education Association officers on the Kenyon bill to establish a new department of public welfare. Further hearings on sales tax proposals also are to be held this week by the Senate finance committee.

Final action by the Senate is expected this week on confirmation of David H. Blair, Winston-Salem, N. C., for internal revenue commissioner. Confirmation has been held up by Senator Johnson, Republican, California.

COOPER TO MAKE SUMMER HOME NEAR GREENVILLE

Governor Accepts Invitation of Greenville. To Occupy Graham Home.

Greenville, May 16.—Definite announcement that he will accept the invitation to make his summer home on Paris Mountain was made by Governor Robert A. Cooper yesterday in long distance telephone conversation with C. O. Allen, of the committee which called on the governor in Columbia some time ago and urged him to spend the approaching summer season here. This decision makes Greenville virtually the summer capital of South Carolina.

The governor's message, which he is following with a letter to Mr. Allen, comes as welcome news to Greenville

citizens and organizations, as strong efforts extending over a period of several weeks have been made to induce him to accept this invitation. Last week, Governor Cooper came to Greenville to look over the several homes offered him, and at that time he was shown over the Paris Mountain properties by Sam R. Zimmerman, president of the Paris Mountain Company, and other citizens.

Governor Cooper decided upon the summer home of Allen J. Graham, cotton mill executive, and this place, which is in the midst of the Paris Mountain Company's development, is to be put into the best of condition immediately. The governor was offered the home of Congressman J. J. McSwain, on North Main street, but this offer he was unable to accept as his physician has advised him to go to the mountains for the warm months.

Space for his executive offices has been offered Governor Cooper by Robert I. Woodside, president of the Woodside National Bank, on the bank's mezzanine floor, and it is considered likely that the governor will accept this offer.

Discover New Crater.

Two young Swedish students of geology named Wadell and Ygberg, after an adventurous nine days' expedition in Iceland, have discovered what is believed to be the largest crater in the world, measuring eight kilometers (five miles) long and five kilometers (three and a quarter miles) wide. The two students further claim to have discovered some warm springs.

Children Given Lessons in Law.

A remarkable educational establishment is the school for judges in Paris. Here mock trials are held by pupils under the supervision of able attorneys. The whole procedure, from the issuing of a warrant for arrest to the summing up and the jury's verdict, is carried through in a businesslike manner.

Relief.

"Helen came back from the seashore without a husband." "And was her father angry?" "Not at all. He was afraid she was going to bring home a husband for him to support."—Boston Transcript.
